NB: Left, right Up, Down and Shape are at the *FROM* station looking at the *TO* station.
Flag codes: (more than one can be used): *L* = Exclude leg from length calculation, *X* = Don't process leg, *P* = Don't plot leg (eg: surface leg), *C* = Don't adjust during loop closure
Comment/sketching abbreviations : DL = daylight above from station TR = Tree Roots S = Stalactite M= Stalagmite C=column P= Pendant
